Comment text:

I wish to strongly show my support in opposing the proposed changes to boundaries for electing councillors in Sunderland.

Firstly, I am a very strong supporter of the local Liberal Democrat's in my area. I fully understand that the majority of people in the current constituency, Hastings Hill, Grindon, Springwell and Thorney Close predominantly voted for the Lib Dem's to represent us.

So far, the Lib Dem's have provided improvements in the area. They are easily accessible and always available to chat about any concerns we have.

I also understand Pennywell and South Hylton predominately voted Labour. Although this may seem irrelevant to the proposed changes, I would be deeply disappointed if we had Labour representing our area. From past experience I have found Labour lazy and unresponsive when it comes to addressing concerns we have had in the past.

Logically, it would make more sense to keep the boundaries as they are. Why would you want us physically divided by having a busy main road in between. Access to public transport also keeps the current area together. Most people in Hastings Hill use the facilities in the Grindon, Springwell and Thorney Close areas, like myself,

I also feel the occupiers in Hastings Hill should be given a say in this matter as it is ourselves who it will affect. I have lived in Hastings Hill since I was born (51 years). I voted Lib Dem's as I believe they are the party in this area who represents the people. If the boundaries are changed then I

will feel let down by Sunderland Council.
