I don't have strong expertise or opinion on these boundaries. But it occurs to me that my ward, Princes Park, should stay as it is because it helpfully delineates a high percentage ethnic minority area in Liverpool. This may ensure that there are targeted services to support this population; that we can better understand the uniqueness of this neighbourhood; and that Councillors for this ward adequately represent the population. If it is subsumed into another ward, I fear the concerns of this unique and important community won't be best represented.
