Dear sir/madam,

Concerning the proposal to join the Grangefield ward with the New Town ward, and renaming the newly merged ward as New Town, I strongly submit my **objection** to the implementation of any such proposal.

Grangefield has a rich history and a number of facilities and institutions in it's name, and to lose all that for the sake of some political scheme/decision that benefits no-one in Grangefield, and at a cost that is not necessary and very wasteful is wrong on all levels. There are no benefits to making this decision, other than perhaps for some political or personal gain from whoever has devised this proposal. There are certainly no benefits to anyone living in Grangefield, like my family and I. Perhaps this proposal is a precursor to the sale and development of some land to a housebuilder which plans to link the two wards physically. No disrespect to those that live in New Town but any such scheme that may be in the offing, I also object to. I understand councils have targets to meet, set by Government, for new affordable homes, but this should not be to the detriment of long established wards and communities.

I therefore strongly object to any such proposal of the joining of the two wards.
