Comment text:

As a resident of Hilton, I welcome the opportunity to comment on the proposed ward changes. I fully support the proposal to remove Hilton from its association with Ingleby Barwick East and group it with other rural communities within the immediate area. The current arrangement forces communities with widely different needs, aspirations and values into an un-natural and artificial grouping that serves the needs of no one and leaves residents feeling frustrated and dissatisfied. I look forward to receiving confirmation that the proposed changes have been implemented.
