Dear Sir/Madam,

I am writing with regard to the proposed boundary changes to Stockton on Tees. I live on the Grange field estate in Stockton but since the last boundary changes my wife and I are no longer in the Grange field electoral ward which quite frankly is ridiculous. We are in the Newtown ward but our road shares no similarities to the Newtown ward in any respect. We would like to see the following after the boundary changes.

A single member councillor for Grange field ward made up of Grange Estate and Newham Grange Estate. These two areas have strong links. The ward should also include Bradley Green Estate and parts of Bishopton Road West.
