To whom it may concern,

I would like to express my opinion of the proposed change of the ward of Newtown. I am totally opposed to the abolition of Grangefield and its amalgamation with Newtown Ward.

I believe a single councillor for Grangefield works very well and we enjoy the full commitment of said councillor who has an extensive knowledge and commitment to the good of this community.

I can see no point in extending the boundaries and risk diluting the services we now enjoy. Grangefield ward currently has a good infrastructure which includes local shops, leisure facilities, educational amenities, churches and bus routes. As these amenities have already been proven to work well for this ward, I see no reason to amalgamate and dilute these facilities with another ward which I believe will have a detrimental effect on the local community.

The boundary lines of Grangefield ward are clear and include all of the services relevant to us. Many won due to the hard work of our councillor.

I believe this proposal should not go ahead. I can see no benefits if this proposal is implemented.
