To whom it may concern,

I am writing to you to register my opposition to the proposed boundary changes in (and dissolution of) Grange field, Stockton.

I've lived in Grange field for several years and it is the community I say I'm part of when asked. In fact, when people ask where I'm from, I answer with "Grange field" before I do "Stockton". Grange field as it is centres around Grange field Academy, Grange field park, Sainsbury's, Stockton Town FC and the cricket and rugby clubs. I'm proud to be a part of this community and would prefer that the people I share these services and spaces with are represented on the council by a single council member - Carol Clark who does a fantastic job for the people in this community and is always available to us.

I hope you'll take note of this and cancel the proposed boundary changes.
