Name: Rachel Hollingworth

Email: [REDACTED]

Postcode: [REDACTED]

Organisation Name: Labour Group – Calderdale Council (Representative of parish/town council)

Comment text:

Dear [REDACTED]

Please see attached a proposal from the Labour Group for a new pattern of wards for Calderdale MBC. I also attach a spreadsheet showing the detailed supporting data.

If you need more information please do not hesitate to get in touch.

Kind regards

Rachel

Rachel Hollingworth
Political Assistant
Labour Group – Calderdale Council

New ward boundaries for Calderdale in 2026

- a Labour group proposal

Calderdale Labour

Working hard for the people of Calderdale

Introduction

In the Labour group submission for part 1 of the Local Government Boundary Commission for England (LGBCE) review of Calderdale ward boundaries submitted 9th March 2023, the need was identified for an additional ward represented by 3 new members to deliver responsive and effective local government. This proposal identifies where the new ward should be located and provides a further detailed submission which seeks to deliver electoral equality across all wards.

In developing a new pattern of wards for Calderdale one of the key considerations is the topography and the scattered pattern of settlements. The borough is made up of large rural and semi-rural areas, steep sided valleys, and towns. On any journey within Calderdale, it quickly becomes apparent that most areas have a distinct character and clear natural boundaries. In urban areas where this is less obvious, in-depth local knowledge has been used to identify where residents consider the boundaries of their communities to lie, taking into account other factors such as polling station locations, public transport routes and, where possible, town and parish council boundaries. Another issue which was addressed was whether some of the ward names entirely fitted residents' perceptions of the area in which they lived. As an example, a substantial area of the current Calder ward covers the town of Todmorden.

Since the last review of ward boundaries in 2003 electoral inequality has developed over time in some areas, reflecting changing populations and patterns of migration. At one extreme, Park ward is now the most densely populated at 5,233 residents per elected member. At the other extreme Luddendenfoot is the least populated, with 3,329 residents per elected member. This proposal seeks to address these inequalities as well as some small historical anomalies from previous reviews. The aim is to have wards which are clearly recognisable to residents, both in name and geographical footprint.

Methodology

This proposal was initially developed by two working parties, one each for Halifax and Calder Valley constituencies respectively. The working parties comprised experienced ward councillors and long-standing local Labour party campaigners with in-depth knowledge of the geography of the borough and significant recent experience of resident feedback from the doorsteps. Each working party developed outline proposals for new ward boundaries which were then discussed by the wider Labour group. Advice was also sought from council officers with responsibility for elections to ensure the proposals appeared sensible and sound. All feedback received was discussed, considered and incorporated as appropriate before a final version was agreed for submission.

Proposal

The Boundary Commission for England (BCE) review of Parliamentary constituencies concluded in July 2023. This review proposed that the external boundaries of Calderdale are unaltered, with the only change being three polling districts – MB, MC and MD are moving from Calder Valley to Halifax constituency. This proposal mirrors that change, it was not considered sensible for ward boundaries to cross constituencies.

Wherever possible we have sought to avoid splitting existing polling districts, but it has been necessary in 5 wards to avoid dividing natural communities. These split wards are clearly indicated on the map in the appendices and in the rationale. Overall figures for these wards have been adjusted using information currently available regarding electors living on specific roads. However, it is important to note these numbers are approximate because they do not include adjustments for population growth to 2029.

Creating electoral equality

The following table shows the number of electors living in each Calderdale ward under this proposal:

Name of ward	Number of cllrs per ward 2029	Electorate 2029 Proposed Wards	Variance 2029 Proposed Wards
Brighouse	3	8,840	-1%
Hebden & Todmorden East	3	8,407	-5%
Elland	3	9,497	7%
Greetland	3	8,181	-8%
Hipperholme & Lightcliffe	3	9,786	10%
Illingworth & Mixenden	3	9,037	2%
Mytholmroyd & Midgley Moor	3	8,581	-3%
Northowram & Shelf	3	8,687	-2%
Ovenden	3	9,090	2%
Park	3	9,245	4%
Rastrick	3	8,789	-1%
Ryburn	3	8,260	-7%
Hebble	3	9,134	3%
Sowerby & Warley	3	9,218	4%
Todmorden West	3	9,128	3%
Town	3	8,689	-2%
Pellon	3	9,064	2%
Wainhouse	3	8,383	-6%

The detailed supporting data on electorate numbers can be found at appendix 1; and a map showing the proposed new ward boundaries can be found at appendix 2.

Rationale for proposed wards

Hipperholme & Lightcliffe

Polling districts	EA; EB; EC; ED; EE; EF
Split polling district (Y/N)	N
Changes proposed	No changes proposed, ward boundaries remain correct for the communities of Hipperholme & Lightcliffe. Consideration was given to moving part of polling district EE (Hove Edge) into Brighouse as many residents tend to use facilities in that area. However, moving 908 electors into Brighouse would put that ward at +10% variance. Given significant development is planned in Brighouse following the approval of the Calderdale Local Plan in March 2023, this would not be appropriate.

Brighouse

Polling districts	AA; AB; AC; AD; AE; AF
Split polling district (Y/N)	N
Changes proposed	No changes proposed, Brighouse ward boundaries remain appropriate for the area. It is currently -1% variance on the 2029 projections, but significant development is likely following the approval of the Calderdale Local Plan in March 2023. This includes the creation of two large new communities. It is therefore important to allow some 'breathing room' in this ward to account for population growth in coming years.

Rastrick

Polling districts	LA; LB; LC; LD; LE
Split polling district (Y/N)	N
Changes proposed	No changes proposed, it is considered that current ward boundaries are well understood and appropriate for the communities of this ward.

Elland

Polling districts	CA; CB; CC; CD (split); CE; CF
Split polling district (Y/N)	Y – CD (divided between Elland and Greetland)

Changes proposed	<p>While the majority of boundaries for Elland remain largely unchanged under this proposal, part of polling district CD will move to Greetland ward. CD would be split to retain the urban 'core' of central Elland including Brooksbank High School, with the remainder of the suburbs around moving out.</p> <p>Consideration was also given to moving polling district CA (Elland Upper Edge) into Rastrick ward, as some residents consider themselves to have a greater affinity to that area. However, the elector numbers are too large to make this possible. The area is part of Elland in name and remains a logical part of the ward.</p>
------------------	---

Greetland

Polling districts	DA; DB; DC; DF; CD (split); CG
Split polling district (Y/N)	Y – CD (divided between Elland and Greetland)
Changes proposed	<p>It is proposed that polling districts DD and DE which include the settlements of Stainland and Sowood move out and become part of neighbouring Ryburn. The majority of polling district CD will move in containing the settlements of Blackley and Little Bradley. It is suggested the name is changed to Greetland, reflecting the largest settlement.</p>

Ryburn

Polling districts	MA; ME; MF; MG; MH; MJ; MK; DD; DE; GF
Split polling district (Y/N)	N
Changes proposed	<p>Ryburn ward has always been geographically large with vast areas of moorland. Significant changes are suggested in this proposal, primarily as a result of highly populated areas in polling districts MB, MC and MD moving into Halifax Parliamentary constituency and Sowerby & Warley ward. However, the areas it is proposed to add to Ryburn create a more cohesive ward of rural and semi-rural areas with Ripponden as the largest settlement. The areas joining the ward are DD and DE (Stainland and Sowood) and GF Boulderclough, which has been part of Ryburn ward in the past.</p>

Mytholmroyd & Midgley Moor

Polling districts	GA; GB; GC; GD; GE; GG; GH; GJ; GK; BE
Split polling district (Y/N)	N
Changes proposed	<p>This ward (currently known as Luddendenfoot) was previously undersize. Under this proposal polling district BE</p>

	(Wadsworth) would join it. The main settlements in BE (Chiserley, Old Town and Pecket Well) strongly resemble existing settlements in Luddendenfoot ward. All are at the edge of the upland area known as Midgley Moor. It is suggested this ward is renamed Mytholmroyd and Midgley Moor, reflecting the main settlement and surrounding countryside.
--	--

Hebden & Todmorden East

Polling districts	BA; BB; BC; BD; BF; BG; BH; BJ; BK; BL; BM
Split polling district (Y/N)	N
Changes proposed	It is proposed that BE (Wadsworth) moves out of this ward, currently named Calder, and into Mytholmroyd & Midgley Moor. It is suggested the ward name is changed to Hebden & Todmorden East to reflect the reality of incorporating a large area of Todmorden. It also removes confusion with the Parliamentary constituency name of Calder Valley.

Todmorden West

Polling districts	QA; QB; QC; QD; QE; QF; QG; QH; QJ
Split polling district (Y/N)	N
Changes proposed	No changes are proposed to the boundaries of this ward, just a slight change of name to reflect geographical reality and resident feedback.

Halifax

Illingworth & Mixenden

Polling districts	FA; FB; FC; FD; FE
Split polling district (Y/N)	N
Changes proposed	Illingworth & Mixenden is currently oversize. It is proposed that FF (Holmfield) moves out to become part of nearby Ovenden ward.

Ovenden

Polling districts	JA; JB; JC; JD; JE (split); FF
Split polling district (Y/N)	Y – JE (divided between Ovenden and Pellon)
Changes proposed	Some changes are proposed to the boundaries of Ovenden under this proposal. FF (Holmfield) would become part of the ward. It is well linked to Ovenden via Shay Lane. It is also

	suggested that part of polling district JE (Lee Mount) joins Ovenden ward, the area is currently split between wards.
--	---

Park

Polling districts	KA; KB; KC; KE; KF; KG; SA
Split polling district (Y/N)	N
Changes proposed	Park ward is currently oversize. It is a densely populated, culturally diverse urban area with a growing population. Under this proposal, polling district KD (Warley Road) would become part of Pellon ward. The small polling district of SA (Clay Pits) would move into Park ward because it is more naturally part of the area.

Pellon

Polling districts	SB; SC; SE; SF; SH; JE (split); KD
Split polling district (Y/N)	Y – JE (divided between Ovenden and Pellon)
Changes proposed	This would be primarily made up of the current Warley ward. Driving out of Halifax through Pellon, the road up to Mount Tabor is a natural link. Added to this ward would be the Wheatley area of polling district JE, which has greater links to Fountainhead and Pellon than Ovenden. Also joining the ward would be polling district KD (Warley Road). Since polling district SG (Warley Town) is moving into Sowerby & Warley, it makes sense to rename this ward after the central area of Pellon.

Sowerby & Warley

Polling districts	SD; SG; PB (split); PC; PD; PE; MB; MC; MD
Split polling district (Y/N)	Y – PB (divided between Sowerby and Wainhouse)
Changes proposed	This proposed ward is almost entirely new, comprising areas from the current Warley, Sowerby Bridge and Ryburn wards. This makes great sense in community terms. People living in Warley Town tend to shop in Sowerby Bridge, and there are significant educational and cultural links between the two areas such as the Rushbearing Festival. Rochdale Road is also a major link to areas previously in Ryburn such as Triangle. The small part split from PB is to keep the Wharf area of Sowerby Bridge intact. It is mainly industrial but a distinct central area which it would be better not to divide. It is proposed to rename this ward Sowerby & Warley, reflecting the main settlements.

Wainhouse

Polling districts	PA; PB (split); PF; NE (split); NF
Split polling district (Y/N)	Y – PB (divided between Wainhouse and Sowerby & Warley) and NE (divided between Wainhouse and Town)
Changes proposed	This proposed ward is entirely new. It is made up of polling districts from the current Sowerby Bridge and Skircoat wards. The Pye Nest area (PA/PB) has a distinct identity, and HX postcodes. People living in this area often gravitate towards Halifax for shopping, recreation, and schools so it makes sense to join Pye Nest to the top of Savile Park (NE/NF). It is suggested the new ward is named after the central landmark, Wainhouse Tower.

Northowram & Shelf

Polling districts	HA; HB; HD; HE
Split polling district (Y/N)	N
Changes proposed	This ward is currently oversize. The HC polling district (Claremount) would leave to join Town ward.

Town

Polling districts	RA; RB; RC; RD; RF (split)
Split polling district (Y/N)	Y – RF (divided between Town and Hebble)
Changes proposed	This proposal suggests that the RE polling district (Siddal) and part of the RF polling district (Whitegate) leave and become part of Hebble ward. Joining the ward would be HC (Claremount), where the housing runs into Boothtown. Also joining would be a small industrial area of NE (Wellhead) which is more naturally part of central Halifax. All areas of this proposed ward are well connected to the town centre via transport links.

Hebble

Polling districts	NA; NB; NC; ND; RE
Split polling district (Y/N)	Y – RF (divided between Town and Hebble)
Changes proposed	This proposed ward is mainly made up of the current Skircoat ward, with the addition of RE (Siddal) and part of RF (Whitegate). These areas are either side of a major link road (A629), and many children from Siddal go to school at Salterhebble and Copley. It is suggested this ward is renamed Hebble, after the Hebble Brook which runs through the centre.

Conclusion

The new pattern of ward boundaries proposed by the Labour Group achieves the desired goal of electoral equality for the communities of Calderdale but goes far beyond numbers. The process of drawing this up has involved many hours poring over maps, proposing solutions, looking at statistics, and comparing statistical ideas to detailed local knowledge. It has been drawn up with care and respect for the communities we represent, as well as those we do not. The very nature of political campaigning means that the people who have created and consulted on this proposal know every inch of this borough, every street and every farm. Many options have been robustly discussed, explored, and then accepted or discarded. The significant investment of time in this process was considered extremely valuable, because the aim was to achieve the very best outcome. As a result of this process the Labour Group believe this proposal achieves electoral equality; has some longevity; attempts to reflect geographical truths; and, most importantly, and gives due respect to the natural settled communities of Calderdale.

Appendices

Appendix 1 – polling districts, proposed wards and electorate numbers

Polling district	Description of area	Parish	Parish ward	Grouped parish council	Existing ward	Proposed ward	Constituency	Electorate 2029

How do I enter my electorate data?

- 1: Type in all your data, by polling district, in sheet "Electoral data". Use the left-hand table, which is columns B to I.
- 2: It's important that every polling district is listed separately. Use your polling district code to identify polling districts in column B. If you have another description, or something else that you think would be helpful in order to identify the area, put this in column C.
- 3: If the polling district is in a parish, fill in the columns for parish (column D) and parish ward (column E). If there are no parish wards in the parish, or the polling district is in an unparished area, leave this blank.
- 4: If the polling district is in a parish which is part of a joint or grouped parish council, fill in the name of this group in column F. Make sure that this column is filled in for all parishes in the group.
- 5: Fill in the existing ward name in column G.
- 6: Enter the current electorate figures for each polling district. Then enter the figures which are predicted for five years. Although we recognise that you will be using a particular formula or method to work out these projections, make sure that the figures are rounded to a whole number before entering them in the spreadsheet. All polling districts should contain an approximate number of whole electors rather than fractions of electors. We work out the predicted electorate of the parishes, district wards and county divisions by building up from polling districts.

How do I check my data?

- 1: If you would like to check your data, use the table on the right. Above the right-hand table is a box called "Check my data". This shows you the total number of electors in all the polling districts. If this isn't right then there is a mistake in the left-hand table.
- 2: Once you have entered all the electoral data in columns B to I, then put in the names of the wards in column K. The spreadsheet will match what you type in column K to what you put in column G. It will add up the electorates of the polling districts in each ward.
- 3: entered, you will be able to see whether the ward is over-represented or under-represented, and by what percentage. (This will only work when the number of councillors has been filled in for all wards.)

Electoral data

Using this sheet

Fill in the cells for each polling district. Please make sure that the names of each parish, parish ward and district ward are correct and consistent. Check your data in the cells to the right.

Scroll right to see the second table

What is the polling district code?	Is there any other description you use for this area?	Is this polling district contained in a parish? If not, leave this cell blank.	Is this polling district contained in a parish ward? If not, leave this cell blank.	Is this polling district contained in a group of parishes with a joint parish council? If not, leave this cell blank.	What ward is this polling district in?	What ward is this polling district going to be in?	What is the predicted electorate?
------------------------------------	---	--	---	---	--	--	-----------------------------------

Check your data	2022	2029
Number of councillors:	51	54
Overall electorate:	151,041	160,016
Average electorate per cllr:	2,962	2,963

Scroll left to see the first table

Fill in the name of each ward once	Fill in the number of councillors per ward	These cells will show you the electorate and variance. The blue cells change depending what you enter in the blue table to the left. The non-filled cells contain data from the original spreadsheet to allow comparison of data (unhide to see these)
