Comment text:

In considering the review proposals currently being addressed by the District Council, this Council would seek a continuance of the current “Carlton Ward” with existing boundaries and a membership representation comprising 3 District Council members.

In considering this view, the Parish Council has taken on board the increasing representation statistics arising from the occupancy of new properties, the infrastructure proposals highlighted in the review of the Neighbourhood Plan applicable to the Ward, and the need to extend the current arrangements for excellent communication between Ward Members and the community they represent.

Yours Sincerely

Clerk
