**Related subject:** Herne and Broomfield

I do support making Herne and Broomfield a smaller area because it has become very large over the years and particularly my area (Herne Common) doesnt even get a mention although very old, I would personally like to see Herne & Herne Common as a parish, and remove broomfield altogether as a parish in its own entity. Herne Common is often overlooked and views are not necessarily listened to, recently our beautiful curtis woods have been devastated by Council works which the parish council were not even informed but didnt seem to be bothered either when we complained and said we should just put our questions to the Canterbury Council, it did make us wonder why we have parish representatives and pay additional council tax if they cant even do that on our behalf. The woods remains in a terrible state sadly.
