**Related subject:** Broomfield

I disagree with the proposed boundary changes. Having lived in Broomfield for a considerable time I have always identified with being part of the community of Herne and Broomfield an ethos that I always understood was to be encouraged. This plan appears to drive a wedge through the middle of Broomfield disenfranchising half of its residents. I personally do not identify with the rest of the Wantsum area and cannot remember when I last drove through Chislet. Many people in my area had no idea about these proposed changes and I would suggest that the publicity around the proposed changes has been inadequate I myself heard of them through a friend.
