Comment text:

Good afternoon

I am writing to say I FULLY support the proposals in the Grindon and Thorney Close area.

I live in Thorney Close and agree with the plans to keep Thorney Close, Grindon, Hastings Hill and Springwell together and represented by one set of councillors.

I have lived in Thorney Close for 55 years which is a strong community joined with Grindon, Hastings Hill and Springwell. Our community all share the same open spaces, the park extensions Barnes Burn and Springwell park, the Grindon Sandhills and the Hastings Hill green space. These are focal points for our community, uniting all four estates rather than dividing them.

There is a distinct hard boundary between the Thorney Close/Springwell areas and Humbledon being a dual carriage way. This is an extremely busy dual carriageway road which separates the areas rather than unites the communities.

It does not make any sense for streets in Humbledon to be added to the Grindon and Thorney Close area as these are in a different community which shares links with the rest of Humbledon hill and Plains Farm, rather than with Thorney Close and I do not believe they should be split.

Many thanks
