## Comment text:

**Related subject:** Humbledon

To whom it may concern

I am writing to voice my dismay at the information that you intend to move mine, and other streets that are currently in Humbledon, to the Grindon and Thorney Close areas. Who has proposed this? Why? What difference does it make to funding? Have you thought about house prices or reputation of certain areas in Sunderland? Do we have any say in the decision or do you have to ask for opinions because its polite, but actually it's a done deal? Maybe this is another reason to not vote for Labour. Never in my life have a voted Conservative but its becoming more of a possibility.

Does it mean my address will change? As you may have realised I'm not happy at all about the proposed changes and will be contacting the local Councillor too
