Organisation Name: (Member of the public)

Comment text:

I have been notified that you are to review the boundary again, I did write against this previously and will again

I live in [REDACTED] and can safely say that I fully believe that this street is in Fulwell and not Southwick, on a map I can see why you may pick the railway line as a boundary however in reality and on the ground it is Newcastle Road, always has been a natural border

People in my road are frequent users of Sea Road and everything it has to offer from shops to pubs to childcare etc

Please don't hesitate to contact me if you require any further evidence
