## Comment text:

Hi

I am a regular visitor to the Ford Estate area of the Sunderland know residents of the area very well.

I agree with the boundary commission proposals for High Ford and Low Ford to be kept together in one council ward, the proposed new Pallion and Ford Ward. Ford Estate is distinct community and should not be separated out into different ward areas as this would make for complicated and non-joined up decision making about the area. Residents of Ford share many community assets such as Hylton Road Playing Fields, Blackie Park, Lambton Street Youth Centre and Front Road shops.

Enabling this by merging Hylton Lane Estate together and including it in the Pennywell & South Hylton Ward and merging High Barnes with Barnes & Thornhill is sensible as both of those estates are distinct communities and share community assets with the rest of the wards they are being merged into.

Regards
