Comment text:

It is unfortunate your proposal contains significant spelling errors such as several River Weirs instead of Wear and Barmstone instead of Barmston. I live in Rickleton and our residents have always felt like the forgotten village in Rickleton-we have been omitted from signposts for example. You will not be surprised to hear I object to being the only ward in Washington to have no references to any of the village names-and we are about as far from the River Wear as it is possible to be in Washington so the Riverside is also a poor substitute.

We have closer associations (shops and facilities)with Harraton,Ayton Lambton and Oxclose than we do to Fatfield and it is not clear where Lambton is to sit.

Please reconsider and give us a proper identity and do not exclude us again. We would be the only ward without a geographical association and no one would ever look for Rickleton in a ward named Riverside, I can assure you

Thank you

[REDACTED]
a very disgruntled Rickleton resident
