Comment text:

Related subject: Public transport

For enhancing environmental practice in decreasing carbon creation bt private car on the road and provide mobility tools for the vulnerable group, government is responsible to plan and implement the good public transport network for the community.

I can see that there is no bus service on Sunday and after 18:00 on weekday. Only one bus no. is operating for the large district. I have directly told the female councillor face by face and had filed opinion in two surveys issued by the council. No improvement plan can be heard. Here is Shavington.
