Related subject: New ward proposal

I am really concerned about your new ward proposal.
I live in Birdwell and my children attend birdwell school.
However in the new proposal you are going to split our village and have the school (which is a 2 minute walk from our house) in another ward under another councillors.

In my experience our local councillors and candidates cannot work together and appear to take pride in offending each other. This gives me no hope that Birdwell would remain a working cohesive village and makes me very concerned about our future as a village.
I fear instead we will become the forgotten outskirts of Worsbrough and Hoyland and lose what makes our village a very good place to live.

Please reconsider and keep Birdwell in one single ward
