## Comment text:

**Related subject:** wombwell ward

we currently reside in the stairfoot ward, but in wombwell, the next street along is in the wombwell ward. We live in wombwell, mainly drive around wombwell, kids go to school in wombwell. yet our councillor is in stairfoot, only ever hear from them when elections are due, don't promote this part of wombwell, why would they, they have interests in stairfoot businesses, residents and the area. The boundary is all wrong we are under represented. the things we need to use our councillor for are wombwell related not stairfoot. eg turn left out of my street and it's a wombwell ward problem if the road is bad etc.
