**Related subject:** Darton West and Dodworth Boundary

I do not think that The old areas of Barugh Green should be in the Darton West ward (such as Milne Street / St Johns Avenue). The lines should be moved to run down the middle of Barugh Green Road, Cawthorne Road and stop down towards the M1 motorway / river. I live right on the boundary of the MU1 master plan and will / am in the Darton ward. We have never felt part of the Darton Ward and the Councillors are never seen and rarely proactive in this village (living here for 47 years), but most of key decisions on the massive MU1 site and which will affect me, will be made by the Dodworth Ward. The Old Barugh Green (60/70's estate and lower higham should be moved over to Dodworth ward to make a clean boundary with Barugh Green Road and make it feel more inclusive. We have always felt like the forgotten outpost of the town and everything seems to rotate around Darton and Mapplewell for the ward as currently sit in. It has never felt right. Councillors just shove an election note through the door and move on. We would like to feel more attached to the massive masterplan development and Barugh green and Higham feel as one.
