Comment text:

Related subject: Bingley

These proposals are divisive and do not reflect the true nature of the community in Bingley

- . The proposals ignore a history which makes for a cohesive community binding people with a common purpose
- . The proposals ignore the community damage which would arise from an arbitrary boundary dividing tight knit groups of neighbours with a common purpose.
- . The proposals are counter to other local boundaries which unite rather than divide people.
- .The proposals would be administratively more complex.
