Comment text:

I disagree with the proposed changes for the following reasons;

1. Being a Bingley resident I want to have a say on local issues and who represents us on our behalf in the town council. The proposed changes will see this removed as I would fall outside of the boundary for Bingley and instead included in Eldwick which, whilst important, does not directly affect me.
2. A key reason why we have local representation included decisions on local issues. By changing the boundaries I would no longer have a direct means of selecting who represents me in the town council.
