Related subject: Bingley and Shipley

I want to retain something near to the current pattern for Bingley and Bingley Rural. I attend meetings of Bingley Labour Party. The two areas can relate to each other although politically different. Cottingley relates well to Bingley town, and has much sociologically in common with it. Most of all, Cottingley does not look towards Shipley. The removal of most of Cottingley to Shipley is therefore a major error in terms of people's actual needs as opposed to mere statistics. I have leafleted etc in both Cottingley and in Denholme, and so have confirmed my views on the doorstep.
