Related subject: Eldwick

Disagree strongly with the move to split Eldwick and move majority into Baildon Ward. Eldwick is a single entity in itself as a village which should not be split between two wards. It has direct links with Bingley with clear transport connections and majority of us do our shopping with the town. There is a moor that directly splits Eldwick from Baildon and Baildon is inaccessible via Spring Lane without a car. There is very little, if any, public transport that would link Eldwick with Baildon. This road is often challenging / impassable in bad weather conditions. There are very few community ties with Baildon - Eldwick village has an active local community with strong links to what happens in Bingley such as the local market etc.

I strongly believe that community links and the sense of belonging that that entails are paramount in today's society and therefore strongly reject the idea of moving Eldwick into a new Baildon Ward. The proposals re: Bingley East and Bingley West retain the community links and recognise the connectedness of Eldwick with Bingley.
