Related subject: Bingley

I completely disagree with the splitting in half of Bingley as a town. It's very strange and I'm not sure of the rationale at all. When has it ever been a good idea to split a town or city in half ? not sure what else to say, but it seems a really silly idea to me. splitting into three: Bingley rural West, rural East and Town would make a lot more sense and align with how it feels to actually live here.
