Related subject: Bingley

Good evening,

I would like to submit an objection to the Baildon Town Council proposal of splitting Bingley into Bingley East and Bingley West and support the previous proposal recommended by the LGBCE to move a section of Eldwick into Baildon.

I feel as a resident of Bingley that splitting the community in two would have a negative effect on the local community, splitting amenities and social interests, such as the arts centre and local parks. Local groups would also be split.

At the moment local councillors can work across the ward, accessing grants to help work on a number of projects. If the ward was split it would be harder to identify which councillor was over which area and solve local issues. Someone living in Bingley East could complain about potholes in the Myrtle park but Bingley West councillors might ignore the issues because it's not their residents complaining.

I would love to keep Bingley together to keep a unified community.
