## Comment text:

**Related subject:** Bingley

I am completely outraged at the proposal that Bingley should be divided into East and West as per the proposal, or that it should become part of Wharfedale. Bingley is in the Aire Valley. It is known as The Throstle's Nest and as an important settlement in Airedale. The proposal put forward by Bingley Town Council is infinitely more sensible, paying regard to the whole community and historic, transport and economic links between the town and its 'feeder' villages. The current proposal seems to ignore why Bingley Town Council was formed at the request of residents and will disenfranchise residents of Gilstead, Eldwick, Cottingley, and Cottingley. Please look at the actual geography of the area, find out about community links and the historical development of this area. It can't just be about numbers. Read the Bingley Town Council proposal and visit the place, don't just look at maps and count residents.
