## Comment text:

**Related subject:** Eldwick

I am writing to give our support to keeping Eldwick whole as one village within the Bingley ward or creating a second ward to accommodate the whole village without splitting it.

As a resident in Eldwick I use the shops/facilities in Bingley which is near and accessible to us all and Baildon is much further to travel and only accessible if have a car as there is no public transport between Eldwick and Baildon, so goodness knows where the bright idea of moving us into the Baildon ward has come from! This proposition does not seem to have been well thought out at all and we really hope that common sense prevails in the end.

Kind regards

[REDACTED]
