## Comment text:

I write with particular concerns about Cottingley in the Bingley Rural Ward and the boundary review. A very good community spirit exists in Cottingley with strong ties to Bingley. The idea of dividing this village with different ties and representation seems counterintuitive. The churches, community centre and voluntary organisations, work hard to create a good community relationship, with even its monthly magazine called 'Connexions' reflecting that. Many of the village initiatives are well supported by the Bingley Council and splitting representation would undermine that. My wife and I strongly support the council proposal that Bradford Metropolitan District Council that Bingley ward is represented by four Councillors so our local community in Cottingley retains its identity, historic links and working relationships.

Regards and thanks
