## Comment text:

**Related subject:** Bingley/Baildon

Eldwick residents have recently been informed that the three Bingley Ward Councillors have made another proposal that a lot of Eldwick should join with Baildon and that tonight is the last opportunity for residents to comment. However I can see no information about this proposal on your website so there seems to be no published scheme that we residents can comment on. I remain very much of the opinion that there is no logic at all in joining Eldwick and Baildon. The two villages are two miles apart and are separated by 800 acres of moorland. There are no public transport connections between the two villages. Eldwick has always been part of Bingley and I am quite happy with your proposal for a Bingley west/east split and for the whole of Eldwick to be in Bingley East. I feel very strongly that it is underhand for the three Councillors to propose another boundary change without any attempt to notify their constituents of their intentions. I also fear that very few Eldwick residents will be aware of the latest proposal as no details have been published.
