**Related subject:** Currently part of Bingley, proposed change to move to Shipley council

I completely against the move to change Cottingley to be part of the Shipley council. This is likely to limit the school catchment area to great local schools in the future such as Beckfoot. Considering that Cottingley mainly consist of houses catered for families. I do not have any confidence to the Shipley council and do not particularly like the mp representing Shipley. Shipley area is very rundown compared to Bingley council, this certainly account to the efficiency and management of those in charge. As a member of the public who lives in the affected area I oppose to your proposed change and it is certainly not beneficial to the local citizens living in Cottingley. It is clear that Bingley council has more funding than Shipley and/or manage their funding more efficiently than Shipley!
