re; Draft proposals for Pontefract North, Pontefract South and Knottingley. I made proposals as a Councillor which I am pleased were accepted in part. The discrepancy still remains about the need to increase the electorate in The Knottingley Ward 9. Using the M62 as a natural boundary appears to be logical but that short stretch of the M62 is totally elevated from the underlying locality and your inspection of the area would benefit from a physical rather than a virtual tour. The single access point lies on the boundary of Ward 13. I would respectfully suggest that the suggestions I made about moving certain electoral areas from Ward 13 and Ward 12 to make Ward 9 more compliant be revisited. It would also be beneficial to take into consideration the rejection of 1000 houses in the Knottingley Ward by the Inspector of the recently adopted Wakefield Development Plan.
