**Related subject:** Boundary Review

The boundary review does not take into account the demographics of the areas for the Ackworth, North Elmsall and Upton Ward along with the Pontefract South Ward.

A much more representative ward boundary would be to group together Ackworth with parts of Pontefract South with North Elmsall and Upton being combined with Hemsworth Ward.

The boundary for a combined Ackworth and Pontefract South Ward should follow the A628 between Ackworth and Pontefract and then Carleton Road, whilst including all of Darrington - essentially covering Ackworth, Badsworth, Thorpe Audlin, East Hardwick and Darrington.

The part of the current Pontefract South Ward not included in the area mentioned could then be included in a Pontefract Ward.

A change such as this would enable better representation for the demographics in the areas involved.
