Related subject: Grays South

I agree with the proposed area of Grays South as I feel the riverside area South of the railway share little in common, particularly in terms of the type of housing, with the area North of the Railway and London Road. However I am concerned about the number of councillors being reduced to 2 in this more densely populated area in comparison to the Ockendon and Aveley wards having 3, unless this is truly representative of the number of residents (and not just those registered to vote).
