## Comment text:

Good morning,

I have just read that there is a plan to change the name of where I live "the homestead's" to Stanford North!?

Why? I live on Bramley's, named because of the orchards that were once here.

History is important, and being named the homesteads is a nice reminder of the history surrounding this area.

Changing the name to Stanford North is a ridiculous idea, and I cannot see a reason for it, other than to further anger local residents in Thurrock.

Please spend your time and ideas on things that actually matter to local residents, instead of thinking of names.

The homesteads doesn't need to be renamed, so please leave it alone.
