## Comment text:

**Related subject:** Little Thurrock Rectory

I agree whole heartedly with all the suggested changes, they are common sense and tidy up several anomalies. Thurrock Park estate is a housing area attached to Little Thurrock through the road network, the nearby shops etc and is detached from Tilbury by fields and a major road. The houses, the residents and general make up of the families, type of working levels, political views, opinions etc means that there is no balanced perspective for the part of Tilbury to which it is currently attached, or for the Little Thurrock ward from which it is currently detached. Resulting in no true representation of the results/outcomes of a local election. This also leads to unpopularity for the candidate who succeeds currently in the ward, leading in turn to negativity, hostility and no effective progress for anyone involved - aka a standoff.
