## Comment text:

As a member of the Homesteads boundary, I am concerned that the merging of my ward into the Stanford-le-Hope North ward will lessen the impact that my councillor has. This is because the new proposed ward will cover a much wider area while keeping the same number of councillors. This favours Conservatives in the way that it sets them up to gain and retain more seats. The Homesteads needs to retain its own ward, to preserve the interests of the distinct group of people living here, including mine.
