Comment text:

Related subject: Netherton

Completely disagree with netherton & newsome being grouped together. Netherton is closer in vicinity and has a lot more connections to Honley than Newsome. A lot of residents use services and amenities in honley such as doctors, dentist, shopping, etc with a hug percentage of children attending the schools in honley. The population mix is also similar to Netherton. Unfortunately the publics view is never listened to and these changes will be made regardless of what people want or what is in their best interest.
