**Related subject:** Proposed boundary change of the estate in acklam middlesbrough as well as chang8 the boundaries of our green spaces

The proposed boundary changes to the new stainsby Hall park , is a disgrace, we will be controlled by councillors we did not vote for, this will have a financial impact on my motor insure, house values will drop and most of all I bought my home because it was in the acklam borough.

The boundary changes to the green spaces are diabolic and a discussed way to divide and concore and make it easy for the green spaces to be distoyed and allow builders and dealers to buy the land , it was previously promised by middlesbrough borough Council that the green spaces in acklam were going to be protected and made into a national park , these areas are invaluable to the living conditions of many ,
