## Comment text:

**Related subject:** Southwest Middlesbrough

The boundaries of the Stainsby Ward should only go as far as Bluebell and Saphwood Becks - not to the fronts of homes on the eastern side of those two becks. The previous three councils have attempted to push through development on the green spaces east of the becks and have been blocked by residents. By moving these into the Stainsby Ward this means that resident concerns over development immediately in front of their homes will be pushed to a different councillor to one who represents them, and also risks planning applications "slipping through the net" by the eastern councillors not being informed as not in their wards.
