**Related subject:** The proposed change of ward from Trimdon to Stainton

I have lived in the Trimdon ward for almost a decade and found that we have had very hands on councillors representing the interests of the area. As a resident on the Stainsby Hall Park estate I have found it invaluable to have 2 councillors covering the area especially with the many issues that living on a new build estate entails.

The proposal to cover an area as large as what has been suggested by changing the boundary to an area almost 5 miles long with only 1 elected representative is a downgrade with regards to serving the needs of the area. Our current representatives are local residents and are actively seen in the community, if the proposed change goes ahead this will mean that the workload of covering such a vast area will fall on 1 persons shoulders. This is unreasonable to expect 1 person to be seen in all areas especially when there are several areas of new estates.
