As a valuable member of the West Marsh area, we are a voluntary community group, with membership of West Marsh Forward. Many residents have given us their own opinions, and we need to put our thoughts forward on behalf of GIB. The whole of the community groups work together, and meet to discuss ward issues on a monthly basis at the Forward meeting. Both of the standing Ward Councillors are avid supporters of this Forward meeting and provide those attending with pertinent feedback from their activities and council meetings Splitting any area of West Marsh into any adjacent wards would totally destroy attendances and isolate important community buildings from availability of use. The existing Councillors provide highly valuable ward funding to various community groups and projects and any split would dilute the power from those donations.
