**Related subject:** St Andrews East and St Andrews West

St Andrews Parish Council discussed the draft proposals at the meeting of Full Council on Wednesday 4th September. The Council comments that it is satisfied with the draft configuration of the new proposed wards of St Andrews East and St Andrews West. Councillors unanimously supported the draft proposals, after previously commenting to the LGBCE, support for a draft submission that preserved the established community within the Parish area. The proposals are set out logically owing to existing polling district boundaries and major roads.
