## Comment text:

**Related subject:** All of it

Far too many councillors and wards. Not required. I feel they are not all in the best interests of the people they represent. Less councillors who are more interested in the people they represent would be better. Not happy paying the money they get which they don't really earn. They need to be more accountable to us and to get out among the people. I have never heard or seen any of my local councillors! Wards are a joke too, don't really cover the areas properly.
