Related subject: Freshney ward abolition

By abolishing the freshney ward and moving areas into different wards this would surely hav an adverse affect as local councillors would surely be more likely to favour the old boundrys within the ward and not have the desired time or resources to efficiently support all residents. It seems unjust the only wards that have been considered are the lesser affluent areas why not humberston ,new Waltham,or scartho which is in part in north lincs regarding general elections,and especially were local independent councillors seem to be elected not wards wereore big party councillors are elected
