## Comment text:

**Related subject:** Freshney Ward

I can see no reason as to why the ward I live in should be abolished and split into other surrounding wards. I feel it is just a political ploy by the council to remove independent councillors. The three Independent Councillors elected by the ward have done far more for it than previous main party individuals in the past. The fact that the independents were voted in by the residents of this ward show the overall feeling of this ward toward the other political representatives.
