Related subject: Freshney Ward

Currently Grimsby has 5 independent councillors, 3 represent Freshney ward at the will of its residents. This follows some poor service at the hands of Labour and Conservative councillors, and a wish for more transparency within council. Residents fought hard to get the councillors they wanted, and wish to ensure this voice for their ward retained. The committee the NELincs Tory party have put into place are putting together proposals to remove Freshney ward and amalgamate it with neighbouring wards. A political stunt at best, corrupt dealings designed to silence a voice on certain issues affecting the ward.

Should the boundary commission side with councils anti-democratic proposals, it will be challenged robustly.
