**Related subject:** Freshney ward

Having read the proposal by the North East Lincolnshire Council leader, I truly believe this is a clear example of gerrymandering. The Council leader, Conservative party and Liberal Democrats want to remove the independent councillors and disbanding this ward gives them the perfect opportunity.

Although I now live in the Wolds ward, I grew up in the Freshney ward, I work in the secondary school in the Freshney Ward, my daughter attends a primary school in the Freshney ward and my family still live in the Freshney ward. The Willows, Wybers Wood, Aylesby Park and Great Coates area are not only geographically very close together there is a shared community. The independent councillors in this ward are very popular with the residents and residents are extremely happy with the work they do for the ward.

There is a clear political gain to the Conservative party if the ward disbands.
