## Comment text:

**Related subject:** Freshney Ward

The council of NE LINC'S are attempting to combine wards solely to reduce the number of independent councillors in council. Not for the betterment of our borough. They have ensured in each scrutiny panel their conservative members are underpinned by Lib Dem councillors. It's an absolute travesty that the public are being ignored for the sake of party politics. As a voting resident of the Freshney Ward, I am absolutely appalled by the decision to merge our borough in order for the main Council Political leaders to remove the much needed and voted in Independent Councillors who are doing so much hard work for the local area, I feel this decision has been made in a bias way to remove the Councillors who are threatening the main party representatives by being honest and open members of the council.
