Related subject: Park Ward

I have recently moved to Highfield Avenue, and would see the community around, being centred around the park. Our local is the Wheatsheaf, I use the sports facilities at Winteringham Academy, in the summer we spent weekends watching performances in the park, as well as engaging with the park care team, and the lovely couple who run the cafe. I enjoy not having to drive to any of these places and when I do drive to work or the shops, I tend to go to Aldi down on Cambridge Rd. Equally I like to walk into town, to the minster, through Ainslie Park. Despite being so close to peaks parkway and the area at the other side of this, I'm not part of any communities over there, and don't usually go in that direction, due to the large road barrier. If the boundary moved us away from the park, I would almost feel like I was being told I wasn't allowed to be in the community I'm currently in. Which would be a-shame as I've only just moved into this community and become part of it.
